-
- All estimates and consultations are free, as are calls and video chats to discuss your project
 - Project pricing depends on the level of detail, expected time to complete the work, paint cost and distance travelled.
 - For every project a price is determined before the project starts.

Murals are all quoted on an individual basis as every job is different. Below are various examples of hand-painted murals I have done for businesses, schools and public spaces, showing the amount of detail, and hence time, involved in their creation, with guide prices shown for each.

Quotes are based on how long I expect the work to take, and will cover materials, paints and travel cost. The price will include a coating of "flat matte" acrylic varnish for protection. For many jobs I stay in my camper van for the duration of the work, often on a client's driveway if there's room, which saves on the cost of staying in local accommodation. For longer jobs I require a "hook up" to mains electricity via a standard plug socket and this incurs a "hidden" cost on your electricity bill of about £3 per night in the cold of winter, less in the summer. I can also stay in supplied accommodation, in an Air B & B, hotel, or on a campsite if needed.

Please use this guide as a starting point for an idea on pricing, check the [FAQ](#) ([././faq.html](#)) for more information if needed, then [contact me](#) ([././contact.html](#)) to get started on working out a bespoke quote for your project, looking forward to hearing from you!

Thanks, Neil

Primary School Library Mural - £1000 (included discount for schools, but not the accessories!)
Medium to high detail

[Click here to see more pictures of this room](#) ([./././murals/primary-school-library-woodland-mural.html](#))

Image used for brochure to aid in land sale. Original artwork is
approximately 1 metre wide.
High detail

[Click here to see more pictures of this room \(.../artwork/misc-art/devon-smallholding.html\)](http://.../artwork/misc-art/devon-smallholding.html)

This selection covers a few styles but I am able to paint many other cool design ideas, give me shout to see if I can help with yours. These examples will help with a ballpark starting point for budgeting your own project, I hope it's not too confusing!

Most of the artwork shown here is pretty high detail, it's what I'm mostly asked to do, but I'm happy to paint the more affordable, less complex or smaller designs too, especially locally, though I will travel too if a project is worth doing.

So if you have just a seed of an idea, a full blown plan or anything in between, get in touch for a chat and I'll work out a quote, with no obligation.

Neil
